

HELLENIC ARMY

50TH MECHANIZED
INFANTRY BRIGADE "APSOS"

CERTIFICATION

It is hereby certified that **Samaras Dimitrios** with primary military occupational specialty "Computer and Network Specialist" served in the Information Technology Support Center of the 50th Mechanized Infantry Brigade "Apsos" of the Hellenic Army. During his military service (01/07/2022 – 16/02/2023), he was assigned the following duties:

- Micromanaging the reservist staff of the unit. Mentoring and training the new unit personnel in order to adapt and make use of their full potential, as well as to the new office staff in IT.
- Administration and maintenance, control and monitoring of network operations and infrastructure of the Brigade's local area network (Windows Server, VSphere ESXi virtualization software).
- Technical Support for the Information Systems of the Operation Headquarters of the Brigade and the local network.
- Maintenance and repairing of computers and printers.
- Creating innovative presentations on Brigade issues as well as professional use of Microsoft Office.
- Image and video editing.
- Management and maintenance of military applications and websites.
- Creating pages using HTML, CSS and Javascript.
- Control of the Greek Army telecommunication systems (Avaya Scopia teleconferencing, Webcam management, IP Cameras and Flir thermal cameras).

During his service he has repeatedly displayed zeal, eagerness, diligence, high professionalism and technical knowledge. He is a highly intelligent individual that can significantly contribute to any project he participates in. He has extensive experience in a wide range of technologies and the capacity and willingness to learn new ones when circumstances demand so. He is highly competent in Human Resources Management. Finally, he is an excellent team player with great communication skills.
